Past Performance

District of Columbia, CSOSA

Contract I: Transitioned SharePoint to Microsoft Cloud Azure, handling design, development, maintenance, support, and overall administration.

Contract II: Developed business intelligence reports using Microsoft Power BI from an Enterprise Data Warehouse (EDW). Focusing on data accuracy and efficient decision-making, we also coordinated report configuration using Agile methodologies.

FMCSA, DOT

Engaged by FMCSA to modernize legacy applications onto the Microsoft Azure Technology stack, including Microsoft Power Platform (Power Tools, Power Apps, Power BI, etc.) Impacted legacy application span across organizations and business processes.

Access Request Initiation Application (ARIA)

Developed to modernize a legacy access request system into a digital, efficient solution using Microsoft Power Platform. Integrated advanced workflow automation and real-time validation to streamline processes.

Workflow Tracking Tool (WFTT)

Replaced a legacy system with a modern solution built on Microsoft Power Platform. Enhanced workflow and data integration, leveraging Dynamics 365 and Azure for improved functionality and reliability.

Peace Corps

Peace Corps CRM Program Management: Managed and upgraded the CRM Program, including Case Management, Contact Management, and Volunteer Lifecycle Management systems within Microsoft Dynamics CRM. Delivered projects on time and within budget.
